About the Conference

BACKGROUND

The 2025 National Health Research Conference (NHRC) provides a forum in which local research findings can be shared with stakeholders to facilitate uptake and use in decision-making to address the country's health priorities.

The Conference is made possible through the collaborative work of several partners in health:

- Ministry of Health
- Tobago House of Assembly
- Faculty of Medical Sciences & Caribbean Centre for Health Systems Research and Development, The University of the West Indies
- The University of Trinidad and Tobago
- The University of the Southern Caribbean
- The Five (5) Regional Health Authorities
- The Trinidad & Tobago National Nursing Association

The Conference will feature research papers (oral and poster presentations) on topics such as Infectious Diseases, Chronic Non-Communicable Diseases, Clinical/Laboratory Studies, Veterinary Studies and more. The NHRC is attended by **over 200** participants including policymakers, researchers, health and allied health professionals (physicians, nurses, psychologists, laboratory technicians, etc.), and other public health officers.

The theme of the 2025 Conference is
'Climate Change: Impacts on Public Health'.

This Conference also enables the dissemination of research evidence to address health priorities of Trinidad and Tobago, as well as the development of evidence-informed policy and programming, aimed at improving the health outcomes of the population.

 **VISION**

Health research in Trinidad & Tobago plays a vital role in informing policy decisions and improving healthcare systems, thereby enhancing the quality of life and health outcomes of the population.

 **OBJECTIVES**

- To share research findings with key stakeholders (health care providers, Ministries, Regional Health Authorities (RHAs), academic institutions, general public, etc.);
- To strengthen the national health research culture;
- To build research capacity and nurture junior researchers;
- To foster collaboration among researchers at different institutions;
- To share policy-relevant messages with the users of research, that is, care providers, policymakers and planners.

 **EVENT INFO**

- **Date:** November 21, 2025
- **Time:** 8:00 AM – 6:30 PM
- **Venue:** Hyatt Regency Trinidad, Port of Spain

 **HIGHLIGHTS****Key Speakers**

- Keynote address by The Honourable Minister of Health of Trinidad and Tobago
- International Guest Speaker (TBC)
- Local Renowned Feature Speakers

Prize Giving & Awards Ceremony and Reception

- Lifetime Research Achievement Award
- Prizes for:
 - Top Early Career Researcher
 - Top Undergraduate and Postgraduate Student Researchers
 - Best Oral Presentation
 - Best Poster Presentation
 - Conference Delegates' Choice – Best Oral Presentation and Best Poster

 **REGISTRATION**

Registration fees are TTD \$700 for delegates and TTD \$400 for undergraduate and postgraduate students, inclusive of lunch and refreshments.

Why Sponsor the 2025 NHRC?

This conference is a timely platform to spotlight innovations, policies, and services addressing the intersection of climate and health.

There will be partnership opportunities with healthcare providers and researchers attending the conference.

Organisations working in health, environment, infrastructure, or community development can use the conference to showcase their work.

Companies with solutions in climate-smart health infrastructure, sustainable technologies, clean energy, or data and risk modelling can demonstrate how their innovations mitigate health risks linked to climate change, and how their products can be integrated into healthcare settings.

The conference offers visibility and networking opportunities with potential investors, partners, and customers.

Financial institutions interested in supporting emerging opportunities in the climate-health nexus, from green tech to climate adaptation in health systems, might view the conference as an avenue to promote advancements in healthcare.

Academic institutions and research organisations can forge collaborations on interdisciplinary climate-health projects with regional impact.

Development agencies and NGOs will find that the conference aligns with multiple Sustainable Development Goals (SDGs), including Good Health and Well-being (SDG 3), Climate Action (SDG 13), and Sustainable Cities and Communities (SDG 11).

Sponsoring positions your organisation as a forward-thinking leader supporting regional resilience, innovation, and long-term public health security.

CORPORATE SOCIAL RESPONSIBILITY

Sponsoring this event demonstrates your commitment to:

- Strengthening public health resilience in the face of climate change, especially for vulnerable communities.
- The promotion of healthcare systems strengthening and capacity building.
- Supporting public health education and health literacy.
- Influencing policymakers toward the development of supportive policies and regulations that facilitate environmental sustainability and improved healthcare.
- Supporting the need for sustainability and long-term resilience in health systems.
- Supporting climate-informed healthcare planning, infrastructure, and emergency preparedness.
- Contributing to sustainable development efforts and long-term climate adaptation in the health sector.

NETWORKING & ADVERTISING

Target Audience:

200-250 researchers, decision-makers, policymakers, healthcare professionals, academics
