About the Conference

BACKGROUND

The 2026 National Health Research Conference (NHRC) provides a forum in which local research findings can be shared with stakeholders to facilitate uptake and use in decision-making to address the country's health priorities.

The Conference is made possible through the collaborative work of several partners in health:

- Ministry of Health
- Tobago House of Assembly (THA)
- Faculty of Medical Sciences & Caribbean Centre for Health Systems Research and Development, The University of the West Indies
- The University of Trinidad and Tobago
- The University of the Southern Caribbean
- The Five (5) Regional Health Authorities (RHAs)
- The Trinidad & Tobago National Nursing Association

The Conference will feature research papers (oral and poster presentations) on topics such as Infectious Diseases, Chronic Non-Communicable Diseases, Clinical/Laboratory Studies, Veterinary Studies and more. The NHRC is attended by **over 200** participants including policymakers, researchers, health and allied health professionals (physicians, nurses, psychologists, laboratory technicians, etc.), and other public health officers.

The theme of the 2026 Conference is ***'Building a Healthier Nation through Innovation, Research and Collaboration'***.

This Conference enables the dissemination of research evidence to address health priorities of Trinidad and Tobago, as well as the development of evidence-informed policy and programming, aimed at improving the health outcomes of the population.

VISION

Health research in Trinidad & Tobago plays a vital role in informing policy decisions and improving healthcare systems, thereby enhancing the quality of life and health outcomes of the population.

OBJECTIVES

- To share research findings with key stakeholders (health care providers, Ministries, RHAs, academic institutions, general public, etc.);
- To strengthen the national health research culture;
- To build research capacity and nurture junior researchers;
- To foster collaboration among researchers at different institutions;
- To share policy-relevant messages with the users of research, that is, care providers, policymakers and planners.

REGISTRATION

Registration fees are TTD \$800 for delegates and TTD \$450 for undergraduate and postgraduate students, inclusive of lunch and refreshments.

Why Sponsor the 2026 NHRC?

04

This conference provides a platform to spotlight innovations, research, and partnerships that are improving population outcomes and building a healthier nation.

There will be partnership opportunities with healthcare providers and researchers attending the conference.

Organisations working in health, research, technology, infrastructure, or community development can use the conference to showcase their work and contribute to national health priorities.

Companies offering digital health solutions, medical technologies, data systems, or service innovations can demonstrate how their products and services enhance healthcare delivery, improve efficiency, and support better patient outcomes. The conference offers valuable visibility and networking opportunities with potential partners, customers, and investors.

Financial institutions interested in supporting health innovation, research initiatives, and system strengthening can engage with emerging opportunities and position themselves within a growing and impactful sector.

Academic institutions and research organisations can build collaborations that drive evidence-informed practice and interdisciplinary innovation.

Development agencies and NGOs will find that the conference is aligned with key Sustainable Development Goals (SDGs), including Good Health and Well-being (SDG 3), Industry, Innovation and Infrastructure (SDG 9), and Partnerships for the Goals (SDG 17).

Sponsoring this conference positions your organisation as a forward-thinking leader committed to advancing innovation, strengthening research, and fostering collaboration to build a healthier Trinidad and Tobago.

CORPORATE SOCIAL RESPONSIBILITY

Sponsoring this event demonstrates your commitment to:

- Strengthening national health systems through innovation, research, and strategic collaboration.
- Supporting research and knowledge exchange that drive continuous improvement in public health outcomes.
- Promoting public health education, awareness, and health literacy.
- Encouraging collaboration between public, private, and academic sectors to address complex health challenges.
- Influencing policymakers toward the development of forward-thinking policies that support innovation and strengthen healthcare systems.
- Enhancing capacity building and workforce development within the health sector.
- Contributing to sustainable development efforts and long-term improvements in population health and well-being.

NETWORKING & ADVERTISING

Target Audience:

200-250 researchers, decision-makers, policymakers, healthcare professionals, academics
